The principle of semi-self-sufficiency means that it is forbidden to be accompanied or allowed to be accompanied during or part of the race, outside the authorized zones and clearly indicated at the refreshment posts (200 meters before and after them) . One of the main values on which the BOCINEROS DEIADAR XTREME is based is sustainability and respect for the environment.

The races that make up the BOCINEROS DEIADAR XTREME- run in many sections through Natural Park and in general through protected spaces that require a special care and respect on the part of all the parties involved in the race: organization, volunteers, public and participants.

As regards the organization, in addition to ensuring and trying that the impact of the races in the natural environment is the least possible, it undertakes to:

- Use recycled, reusable or biodegradable materials.
- Remove all beacons and marks indicating the routes and, in any case, remove any type of residue that may have dropped during the races.

In addition, the organization will make a special effort to comply with those aspects of the regulation related to the conservation of the environment:

- At the refreshment posts, there will be no cups to avoid, as far as possible, the generation of rubbish. Each participant must carry a recyclable container (cup, drum or other container) with a minimum

capacity of 30 cl. Exceptionally, they can be used in the first refreshment stand of the races to avoid crowds.

In case of opposition to such control, in addition to the immediate disqualification by the organization of the BOCINEROS DEIADAR XTREME and its prohibition to participate in any other race thereof (see Article 25: Penalties), the participant will be sanctioned as if he/she had been positive in a doping control, according to the Anti-Doping Regulation of the EMF / FVM and to the other normative dispositions that are applicable at any moment in relation to this matter.

It is strictly forbidden to participate in the BOCINEROS-DEIADAR XTREME if anyone is complying with a doping penalty or has been sanctioned for doping at some point in his or her sporting career (even if he / she has complied with the sanction), whether associated or not at the moment of the formalization of the registration and / or in the date of the event celebration.

If a person has formalized the registration and the organization of the BOCINEROS-DEIADAR XTREME subsequently proves that He/She does not meet

the requirements indicated in the previous paragraph, his/her registration will be automatically canceled and will not be entitled to the refund of the fee.

### **Article 19: GEO-LOCALIZATION**

The organization will provide the participants of the BOCINEROS DEIADAR XTREME race with a GPS beacon for their geo-localization or geo-positioning. It is a security device that will allow the organization to know at all times the exact position and in real time of each of the participants.

Participants are obliged to carry the GPS beacon at all times, which will be installed in their backpack when collecting the bib number. Refusal to do so or to disengage from it will be grounds for immediate disqualification (see Article 25: Penalties). It can only be removed by members of the organization.

The GPS beacon is a high-cost item. It is the responsibility of the participant to take care of it from the moment he is provided with it and until his crossing the finish line or withdrawal of the race.

Due to high costs, the organization will charge a 20€ deposit ( only accepted as a 20€ note) in order to get the race number, which will be refunded when the runner returns the marker at the end of the race.

If a runner is unable to complete the race, the marker will be return at the closest checkpoint and the deposit will be refunded at the finish line.

If it is not possible to use these numbers because of coverage problems or if the emergency situation is particularly serious, the free emergency number 112 must be dialed.
